ANNUAL SYSTEM TUNE-UP

ANNUAL SYSTEM TUNE-UP INCLUDES:

- Testing & adjusting oil burner for maximum efficiency
- Inspecting combustion chamber; cleaning & checking electrodes and nozzle assembly
- Oiling all motors on burner, fan & circulator (as needed)
- Replacing oil filter cartridge, nozzle & pump screen (as needed)
- Checking all safeties & operating controls
- Vacuum-cleaning of heating system & flue pipe, including chimney base (where accessible)

This service covers up to 2 hours of labor. If additional time is needed, prevailing labor rates will apply. It is the customer's responsibility to schedule the annual tune-up during our regular working hours through our service department. See Terms & Conditions for complete details on CallRichards.com.
